**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 25 and 26 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 25 recites the limitation "said seal" in lines 1-2; however, it is unclear to the Examiner whether the seal disposed between the annular flange, or the circumferential seal is being referenced.

Claim 26 recites relational diameters, but the diameters are contradictory to one another.

### ***Allowable Subject Matter***

Claims 1-24 are allowed.

Claims 25 and 26 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

The following is a statement of reasons for the indication of allowable subject matter: The prior art of record fails to disclose a fluid-tight conduit connection comprising a male conduit having an end, an outer wall, a radially outwardly extending annular flange, and an annular groove formed in the outer wall spaced from the end and annular flange; a receiver block having a flared shaped first aperture defining an inner

surface of the receiver block, and a second aperture; a seal disposed between the annular flange of the male conduit and the inner surface of the receiver block; a circumferential seal disposed within the annular groove of the male conduit; and means for fastening the male conduit to the receiver block to securely holding the male conduit and the receiver block together.

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
